SUMMARY

Computer Science Engineering student at SSN College of Engineering with hands-on experience in software engineering, machine learning, distributed systems, and cloud technologies. Software Engineering Intern and published researcher with experience building AI-powered applications, scalable backend systems, and real-time data pipelines. Passionate about backend engineering, system design, and applied AI.

EDUCATION

B.E. Computer Science and Engineering

Aug 2024 – Present

Sri Sivasubramaniya Nadar College of Engineering
CGPA: 7.3/10

Diploma in Electrical and Electronics Engineering

Jun 2021 – Apr 2024

Sri Moogambigai Polytechnic College
96.14%

State First Rank Holder

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Frontend: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, REST APIs

Databases: MongoDB, MySQL

DevOps & Deployment: Vercel, CI/CD, Environment Management

Cloud & Tools: AWS (EC2, S3, IAM), Docker, Git, GitHub, Kafka, Spark, Linux

Machine Learning: Scikit-learn, XGBoost, Pandas, NumPy

Core CS: DSA, OOP, DBMS, OS, CN, Distributed Systems

AI / LLM: LLMs, Prompt Engineering, RAG, AI Agents

EXPERIENCE

TechLift Digital

Chennai, India (Remote)

AI-Augmented Software Development Intern

May 2026 – Jun 2026

- Built AI-powered CRM features for jewelry SaaS using Next.js and AI services.
- Designed scalable backend workflows using microservices and system design principles.
- Integrated Sarvam AI for CRM automation and business insights.

Software Engineer Intern

Dec 2025 – Apr 2026

- Built full-stack micro-SaaS features using Next.js, Node.js, and REST APIs.
- Developed scalable backend modules and production features in Agile environment.
- Used Git workflows for deployment and feature delivery.

RESEARCH

Neurocomputing-based Financial Market Analysis

- Developed ML-based financial market analysis framework; presented at ICTIS 2026 (Thailand) and published in Springer LNNS.

PROJECTS

AI Jewelry CRM (Multi-Tenant SaaS ERP)

- Built multi-tenant SaaS ERP for jewelry businesses covering CRM, billing, inventory, loans, and services.
- Designed scalable backend with RBAC and REST APIs using Next.js and Node.js.
- Integrated Sarvam AI for business intelligence queries.

OrchestAI – Multi-Agent Market Intelligence Platform

- Built an AI multi-agent system with crawlers and LLM orchestration to generate competitor intelligence from web data.

ML-Based Placement System

- Built ML system for placement prediction and resume optimization using XGBoost and NLP embeddings.
- Ranked Top 10/260 teams at TechnoVerse Hackathon (10K winner).
